

Neighborhood Construction Notification

Dear Resident:

We wanted to make you aware that within the next 7 to 10 business days, **Skoda Contracting, a qualified Elizabethtown Gas contractor, will install natural gas main in your area, making safe, reliable, affordable natural gas available in your community.**

During the gas main installation phase, our contractor will excavate a narrow trench in the road. After the main is installed, individual services will be installed.

Work in your community may include traffic impacts, limited street parking, loud noise and the presence of heavy equipment. We realize that construction activities are rarely a welcome sight, but we appreciate your patience and understanding as we work to bring these important improvements to the natural gas delivery system in your neighborhood.

If you are not currently an Elizabethtown Gas customer, now is the time to consider making the switch to natural gas for your home or business. For more information on switching to natural gas, visit elizabethtowngas.com/switch or call **844.886.8488** to get started today.

If you have any questions or concerns regarding the construction aspect of this project, please call our Project Hotline at **866.767.5558** or email us at etgprojects@sjindustries.com. All inquiries will receive a response within one business day.

Sincerely,

Elizabethtown Gas

PLEASE RETAIN THIS LETTER FOR FUTURE REFERENCE AND CONTACT INFORMATION.
